**AREAS THAT REQUIRES FURTHER MANAGEMENT DISCUSSION**

**2/10/2021**

- ❖ Farm running as a production unit and the main aim is to run as an enterprise purchase of inputs through procurement process is very high as compared to the market price thus the management to review on how to go about.
- ❖ The organ gram does not specify exactly where the farm should operate on the matter to reporting.
- ❖ To look on the issue of veterinary services since a farm with livestock cannot run without a veterinary in place.
- ❖ During the disposal process it should not take long since changes occurs on daily bases especially when reserved price is done based on the weight.
